JULY 2023 Newsletter - Turlock Branch 143

BIG SIR MARK TAYLOR SAYS...

Greeting fellow SIRs. I am happy to report that our new change of venue to the Black Bear Diner appeared to be successful. By a show of hands at the regular meeting and the discussion at the BEC, the consensus was that the members enjoyed the experience. As such, we will continue to meet there. Our attendance was good at the last meeting, but I hope that many of you will mark your calendars and **attend our July 19 meeting at Black Bear Diner.**

In other news, I discussed the activities available to seniors at the Turlock Senior Center. These activities do not clash with the ongoing activities offered by SIR and offer more opportunities for seniors to enjoy their retirement. The annual cost to join TSC is \$25. Many SIR members are already enjoying the diversions such as pool and bingo. **For more information on activities and costs (if any) check out the complete list on page 10 of this newsletter.**

Have a happy Fourth of July and see you on July 19 at the Black Bear Diner.

**DEADLINE FOR THE NEXT NEWSLETTER IS:
AUGUST 1-2 and 3 of 2023**

SIRS Wednesday Meetings will begin at 11:00 a.m. and BEC Friday breakfast meetings will begin at 7:30 a.m. for breakfast and business Meetings will begin at 8:30 a.m.

Rick further mentioned he would be willing to work on updating the SIRS "business cards" and the tri-fold flyers to reflect our current meeting place and hours.

Rick also mentioned we need new "sandwich" signs as well as "banners" that need updated. A cost of \$500.00 to spend on these items was approved with a 1st by Bill Stires and 2nd by Bob Holly.

Rick mentioned the Form 20 needs to be updated. Roger and Rick will work on this.

The meeting was adjourned at 9:15 a.m.

Respectfully submitted by

SPEAKER FOR THE MONTH OF JULY: Joe Pruzzo, CEO, Castle Air Museum

Joe Pruzzo, CEO of the Castle Air Museum in Atwater will be our speaker in July. **YOU DON'T WANT TO MISS THIS TALK!** Castle Air Museum is preserving our military aviation heritage for future generations. Castle Air Force Base provided primary air crews training in the B-52 and KC-135 aircraft from the mid-50's until the base was closed in 1995. The museum represents history in a way the whole family can enjoy and share. While there is nothing glamorous about war, our majestic warbirds are awe-inspiring reminders of how fragile our freedom can be and how men and women have stepped forward when that freedom was threatened. Joe Pruzzo will give us a peek into the past and lends insight into the evolution of aircraft and the past milestones of aviation. Joe offers visitors of all ages a glimpse of what the future of aerospace might look like. Home to over 80 restored vintage military aircraft ranging from pre-WWII to the present-day fighters, the Museum houses a fascinating collection of wartime memorabilia, uniforms, historic photos, and personal military artifacts from the past century. The Museum is proud to display the most complete lineage of Bomber Aircraft on the West Coast dating from prior WWII to the end of the Cold War spanning nearly 70 years.

Our new year began with one of the most sweeping acquisitions in the history of the Museum. Four helicopters acquired from the former Barbers Point Naval Aviation Museum on the Island of Oahu, Hawaii have joined the collection! These are a Bell AH-1W Cobra, SH-60 Seahawk,

Sikorsky UH-3 Seaking and CH-53 Seastallion! These four aircraft coupled with our HH-43 Huskie, CH-47 Chinook, and UH-1V Huey now gives the Museum Rotary Wing Aircraft from all four U.S. Military

services! This momentous undertaking would not have been possible without generous donations and support from Pasha Hawaii Shipping, which underwrote the \$150,000 plus dollar cost to donate all shipment! Museum member and Volunteer Mr. Sam Knaub of Specialized Aviation Services, Sam and his crew for disassembly and packing for shipment, and Kirby Manufacturing of Merced for their donation of roundtrip trucking, hauling the Aircraft from the Port of San Diego and returning the empty trailers back to the Port! Thank you to all for this outpouring of support and generosity in sharing the mission of "preserving military aviation heritage for future generations." Thank you to all of our generous individuals and corporate donors for your unbelievable support!

COMING IN A FUTURE DATE

In a future date we will have an outing to the

CASTLE AIRBASE AND MUSEUM

Look for info to follow.

CASTLE AIR MUSEUM

Castle Air Museum represents history in a way the whole family can share. While there is nothing glamorous about war, our majestic warbirds are awe-inspiring reminders of how fragile our freedom can be and how men and women have stepped forward when that freedom was threatened.

A visit to the Castle Air Museum gives visitors a peek into the past and lends insight into the evolution of aircraft and the past milestones of aviation. It offers visitors of all ages a glimpse of what the future of aerospace might hold.

Our collection encompasses nearly seventy restored vintage military aircraft ranging from pre-WWI to the present on approximately twenty acres of beautifully-maintained grounds. In addition to the outdoor displays the museum is complemented by an indoor museum which houses a fascinating collection of wartime memorabilia including aircraft artifacts, military uniforms, historic photos, and personal military artifacts from the past century.

The Foundation has relied mainly on volunteers to restore and maintain the aircraft. The current site was obtained by the Foundation after the closure of Castle Air Force Base. The Foundation sponsors numerous public events and works with a variety of youth organizations and schools.

PRESERVING OUR MILITARY HERITAGE

The aircraft on display at Castle Air Museum are as much a part of America's heritage as Independence Hall and the Battlefield at Gettysburg. Yet only a handful of these flying testimonials to our country's devotion to democracy have survived decades of neglect and the salvage torch.

The United States Air Force's Heritage Program was instituted in order to preserve the few remaining examples of these aircraft for posterity.

Accepting the challenge of restoring, maintaining, and displaying World War II, Korean War, and Vietnam Conflict aircraft, a group of dedicated enthusiasts in the Atwater-Merced area formed the Castle Air Museum Foundation in 1981. It was their dream to build a museum to exhibit restored historic aircraft for public enjoyment.
